CHOOSE / SEND

At this stage the customer can choose any rugs from our collection or send us a drawing or a personal image with which he wants to make a rug. The carpets are divided by type and can be made in different qualities and materials. You can freely choose to order a rug to-

tally in wool or silk or 50% wool 50% silk based on the design. The designs are achievable in the Handtufted and Handknotted qualities while in the Loomknotted quality we can make only monochrome rugs.

SERVICE

In this important phase, once you have chosen what type of design you want to create, you need to understand which colours you want based on the interior space surrounding the rug. Rugs, based on the colors chosen, can become protagonists or not in your living spaces. You choose the colors from our collection with UTAPEA codes and we send you a photo of the pom-

pom of the chosen colors matched together to understand if there is harmony of colors. In addition to this we offer you, starting from the design that you have chosen, both from the collection or custom, a rendered drawing with the colors chosen by you. In the proposed scheme we explain our service with an example.
